ARTISTRY™

HEALTHY LOOKING SKIN,
LASTING BEAUTY

For over 60 years, healthy beauty has been the focus of Artistry™ products. **Edith Rehnberg** and **Carl Rehnberg**, founders of Nutrilite™, were the figures behind the birth of Artistry™. They combined the finest sources of beauty, science, and nutrition with a holistic approach—giving rise to healthy beauty.

ARTISTRY™

SOURCED FROM NATURE, PERFECTED BY SCIENCE

Artistry™ products are enriched with natural ingredients sourced from Nutrilite™'s organic farms, that is processed and **perfected by scientists in Artistry™ Innovation and Science (I&S)**.

Artistry™ scientists are constantly making new discoveries and innovations in beauty and skin health in collaboration **with scientists from all over the world**, such as the University of Michigan, Seoul National University, and NASA.

Artistry™ has **more than 230 patents worldwide** and a database of over 32,000 faces and skins, making it the largest and most comprehensive database in the world. This enables Artistry™ to understand skin problems and create the right product solutions.

CLEAN BEAUTY

All products in the Artistry Skin Nutrition™, Artistry Labs, Artistry Go Vibrant™, Artistry Ever Perfect™, Artistry Future Glow™ series are compliant to Artistry Clean.

The Artistry™ Clean Beauty List: contains a list of ingredients that can and cannot be used in formulating Artistry™ products. This list is constantly updated to keep up with the evolving trends.

Does not perform animal testing.

Vegan formula and certified by **The Vegan Institute**.

TRACEABILITY

Like Nutrilite™, Artistry products also use natural ingredients that come from Nutrilite™'s organic farms, so that each process from seed selection to creating the Artistry products are all **#Traceability**.

LONGXEVITY

Supports the skin's natural cell regeneration rhythm to help your facial skin look younger, firmer, and more radiant.

! Fact

In your 20s, skin cells regenerate every 2-3 weeks. **By your 40s, the process slows to 4-5 weeks, making signs of aging more visible.**

✓ Solution

To reduce signs of aging, you need skincare that helps maintain the natural rhythm of skin cell renewal. Artistry LongXevity™ is the result of 20 years of Amway research with global skincare experts. **With the Cellular Health concept, this product helps maintain skin vitality and the natural cell regeneration rhythm**—making skin appear brighter, firmer, and more youthful.

3 CRUCIAL STAGES In The Skin Cell Lifecycle

Artistry LongXevity™ is enriched with active ingredients such as **Argan Stem Cells, NutriCert Milk, Olive Leaf Stem Cells, Ginkgo Biloba, 24K Gold, and Diamond Powder** to activate the skin's natural power from within.

Stage 1: Birth

(Formation of Skin Cells)

Argan Stem Cells:

Stimulate new skin cell formation for a youthful, healthy appearance.

Stage 2: Grow & Thrive

(Growth & Protection of Skin Cells)

NutriCert Milk:

Prevents collagen damage and maintains skin firmness.

Olive Leaf Stem Cells:

Provide antioxidant protection to prevent cell damage and maintain optimal skin elasticity.

Stage 3: Elimination

(Replacement of Aged Skin Cells)

Ginkgo Biloba:

Maintains cellular energy to support regeneration and optimal repair.

Rich Cream

A luxurious face cream that locks in moisture for up to 24 hours, formulated with selected **phytonutrients** and **argan stem cells** to support skin cell regeneration. Clinically proven to reduce signs of aging, with visible results in just 1 week.

AND COMFORTABLE

Make your home a cozy place to recharge your energy. Equip it with high-tech appliances to protect your family's health and keep every occasion a memorable one.

! Facts

Humans spend

80%

of their lives
indoors,

so make sure your family is
breathing quality air.

✓ Tips!

KEEPING THE AIR IN YOUR HOME CLEAN

- **Do not smoke inside the house**, as the smoke can cling to the interior, posing a health hazard.
- **Opening the windows wide** for at least 15 minutes every day can improve air flow and circulation at home.
- **Clean the room every day** so that the room is dust-free.
- **Put plants** that can absorb air pollution in the house such as aloe vera, sansevieria, and spider plant or paris lily.
- **Invest in a good air purifier** such as **ATMOSPHERE SKY™** and **ATMOSPHERE MINI™** with **99.99%** filtration capability and the latest technology that will make it easy and ensure pollutant-free air at home.

CLEAN AIR, NOW!

WHY ATMOSPHERE™

ELECTRICITY SAVING

Electricity consumption comparison:

✓ **ATMOSPHERE SKY™**
only **47 watt.**

✓ **ATMOSPHERE MINI™**
only **38 watt.**

✓ **ATMOSPHERE™ Drive**
only **5 watt.**

USING MECHANICAL FILTRATION

Mechanical Filtration is an air purification technology that works to capture particles in the filter, while carbon uses an adsorption process to capture odors. Compare with other air purification technologies:

- **Ozone Generators**, produce ozone that can kill microorganisms and separate chemicals in the air, but in excess can be harmful to health.
- **Negative Ionization**, removes negative ions, but the ions fall to the floor surface instead.

- **Photo-catalyst**, converts gaseous contaminants using UV radiation into neutral substances, but it produces formaldehyde from incomplete conversion.
- **Electrostatic precipitation**, removes fine particles, but this technology produces ozone and has poor long-term performance.
- **UV-C disinfection**, reduces viruses and bacteria, but the effectiveness of this technology varies greatly according to the application, so the success rate is very low.

Water Purification Process in The New eSpring™ #ClearlyBetter

How The New eSpring™ produces water with guaranteed quality, safety, and taste

✓ ESPRING E3 CARBON FILTER

Filtration begins by **effectively reducing more than 170 contaminants**, with 3 stages of filtration:

1 Pre-filter

Captures large particles such as sediment, sludge, iron, and other impurities.

2 Defense Guard

Improves water clarity and captures fine particles such as microplastics, asbestos, and cysts.

3 Carbon Block

Effectively removes 170+ contaminants sized up to 0.2 microns (300- 500x smaller than a human hair).

✓ UV-C LED TECHNOLOGY THE FIRST IN THE WORLD*

Next, the water will enter the UV-C LED chamber.

The UV-C LED will emit high-energy 267nm ultraviolet light that is highly effective at killing **99.9999% of bacteria**, **99.99% virus**, and **99.9% cyst** in the water.

UV-C LED specialty

- 5-10 years dressing life
- Chemical-free and environmentally friendly method
- Does not produce harmful residues and does not change the taste and color of water.

*Use of UV-C LED technology for water purification and NSF
